

The Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear The Federal Communications Commission,

Please help me keep my phone bill affordable. Reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

It is unfair that under the flat fee proposal you are considering, people who make few long distance calls would pay the same as people or businesses that make many calls.

My wireless phone is only for safety on the road so I buy a plan that emphasize my paying for low usage. Don't make drive me out of the wireless market. Reject a flat-fee USF collection system. Thank you!

Sincerely,

William Herbert
